A ten-day notice was sent on the fast driving charge and Kint pleaded guilty on the other charge before Justice Snyder Saturday evening. County Reaches One-Third Of War Bond Drive Quota

War bond sales in the Third War Bond drive in Adams county reached the one-third mark over the week-end . . . but the longest, hardest and most difficult battle, selling two-thirds of the \$2,134,100 quota lay ahead.

Total sales before the opening of business this morning were reported at \$714,383.50 leaving an unsold balance of \$1,419,716.50.

"The quota in Adams County is not unrelated to the quota of the United States," said Edmund W. Thomas, Chairman of the County committee.

"The quota of Adams County is not unrelated to the battle-fronts in Italy and elsewhere. There is a direct relationship between the War Bonds sold in Adams County and the men from Adams county who are on the various fighting fronts. Already there are new graves on the beaches of Italy and Sicily."

"The work in which we are here engaged . . . selling \$2,134,100 worth of War Bonds before September 30, midnight . . . is important to the Allied successes and essential to the Al-

lied Victory which we all hope for. The success of our drive will have a bearing on the termination of the war, as well as the saving of lives in future battles.

"Though we are impelled by sentiment to do many things the people of this county are asked to buy a share in America. If our boys are giving 100 per cent . . . their lives . . . can't we invest a goodly portion of our money . . . all if necessary . . . to back their attack?"

"To attain our quota, and there remains but ten days in which to do so, means hard, fast, continuous work and effort . . . it means buying bonds to the very limit of our ability. It means investing in Victory, investing in the life of your boy or your neighbor's boy."

All over the county volunteer workers are bending every effort to contact every financial source. However, many sources have not been contacted and these are being asked to voluntarily purchase bonds before solicitors reach them.

Ten days to sell \$1,419,716 means \$141,971.60 each day.

GET TICKETS FOR MUSICAL

Holders of war bonds in denominations of \$100, \$500, \$1,000, \$5,000 or \$10,000 may secure tickets of admission to the musical revue "See Here, Mr. Smith" to be presented in the high school auditorium Tuesday evening.

Bond holders of the above denominations are asked to call at the Majestic theatre, show their bond receipts, and in exchange they will be given a ticket of admission. There are but 593 available seats in the auditorium. Most have been disposed of, but there remain a few to be disposed of by noon Tuesday. The chart closes at that time. It will be moved to the high school building unless all the seats are sold by that time.

The total sales in war bonds for the performance exceeds \$450,000. The goal is one million dollars.

Ask Cooperation In Scrap Drive

The cooperation of every resident in "making the September salvage drive Tuesday evening as complete as possible" was solicited today by the firemen's committee in charge of the drive.

"The state's quota of salvaged materials has been increased for September and as a result Gettysburg's quota has been boosted. If we are to secure our share of the scrap materials necessary for the progress of the war we must do a first class collection Tuesday evening. Everyone should be able to find some salvage articles around the house. Have them on the sidewalks for us to pick up Tuesday evening." Vernon B. Corle, chairman of the firemen's committee, said.

The firemen will begin their tour of the town at 8:30 o'clock Tuesday.

Major Edwin W. Elder, Jr., has been decorated for heroism in action "somewhere in Sicily," according to word received by his wife at Littlestown.

Major Elder was awarded the Silver Star. The citation accompanying the medal discloses it was given for "gallantry in action when during a particularly intense and accurate enemy artillery barrage, he exposed himself to enemy fire and contacted flanking units between which communications had been disrupted. Because of his coolness and keen tactical judgment the success of his battalion's attack was assured."

Major Elder has been serving with the armed forces overseas for the last fourteen months. During his absence Mrs. Elder is residing with her parents, Mr. and Mrs. Maurice C. Wareham, Park avenue, Littlestown.

YEAR'S LEAVE IS GIVEN PRINCIPAL IN YORK SPRINGS

A leave of absence for one year was granted W. Roy Starry, principal of the York Springs high school, at a special meeting of the York Springs school board Saturday evening. The leave is effective from September 7, and extends to Labor Day, 1944.

The leave permits Mr. Starry, who has been principal of the York Springs school for the last 27 years, to work with the Federal-State Fruit and Vegetable Inspection service. The board noted that the leave would permit Mr. Starry to assist more directly with the war effort because of the great shortage of qualified men to inspect crops under the present war-time conditions.

Mr. Starry and his brother, Raymond M. Starry, who is also an inspector, left Sunday for Northeast, Erie county, and began their work this morning, inspecting Welch grapes in Erie county. Later they will be sent to the Carolinas to inspect sweet potatoes and peanuts.

Roth Is Acting Principal
Raymond Starry has been acting as an inspector this fall and W. Roy Starry was an inspector during the summer months, working with sweet corn near Lancaster.

The York Springs principal, who has taught in the York Springs school for 37 years, was appointed as an inspector from a list suggested to D. M. James, head of the Federal-State inspection corporation, early this year by the office of the county superintendent of schools. Mr. James had asked for such a list of qualified men from Adams county.

Mr. Starry taught social studies at York Springs in addition to his duties as principal.

Close Schools Today
Dale H. Roth, music supervisor at York Springs since 1937, was appointed acting principal for the coming year and Miss Eleanor C. Wolfinger, foreign languages teacher, was named assistant principal.

The board also decided to close the York Springs schools for two weeks, starting today, to allow the youngsters to help in the apple and tomato harvest.

Germans Flee From Sardinia

Arrows indicate Italian activity in Sardinia and the German withdrawal to Corsica, reported Sept. 19 by an Allied communique. On the Italian mainland British and American forces captured Altavilla and Battipaglia in the steady expansion of the Salerno bridgehead. Aerial forces lashed out at German air bases in the vicinity of Rome.

Badoglio

Allied Headquarters in North Africa, Sept. 20 (AP) — Premier Marshal Pietro Badoglio escaped from Rome a few hours before the Germans took over the city and made his way to Allied territory by automobile and ship, an American official who talked with the Italian chieftain disclosed today.

The American, who cannot be more definitely identified for the moment, said Badoglio gave this version of his escape:

After announcing the armistice terms to the Italian people on Sept. 8, Badoglio realized that the German troops around the capital planned to take it over and to take himself and King Vittorio Emanuele into custody.

Smashing Japs

(By The Associated Press)
American forces have struck new blows at Japanese defenses in the Pacific, lashing out in considerable strength at the enemy-held equatorial islands of Tarawa and Nauru and continuing their pounding of air installations on Bougainville in the Solomons.

Mitchell bombers blasted the enemy's Kahili and Ballale air fields at the southern end of Bougainville in three surprise night raids and a heavy force of dive bombers and torpedo planes returned to Ballale in a daylight attack as the campaign apparently designed to knock out Japanese defenses on the island moved into its second week.

Mighty Navy

Washington, Sept. 20 (AP)—Industrial America's outpouring of ships, planes and munitions for the Navy has built up the mightiest sea-air power in the world—a gigantic fleet operating around the globe.

A Navy inventory disclosed today that the fleet now includes 14,072 vessels, 613 of them warships. In 1940 the Navy had only 1,076 vessels, of which 383 were fighting craft.

The air power, described as "the most powerful naval air force in the world," now has more than 18,000 planes of all types, compared with 1,744 on hand three years ago.

Close Border

At the Swiss-Italian Frontier, Sept. 20 (AP)—The Ponte Chiasso customs station on the Italian side of the Swiss-Italian frontier, where hundreds of Italian troops and civilians have been massing in an effort to flee the country, was closed today by German troops.

Passports, frontier cards and visas were invalidated and some 600 persons who until now had crossed the border daily to work were detained on whichever side of the border they were caught by the action.

Nazi occupation authorities have completely suspended passenger traffic from Como, Italy, into Switzerland. A few freight trains were permitted to go through.

Over The Top

Washington, Sept. 20 (AP)—Maryland today became the first state to exceed its quota in the \$15,000,000, 000 Third War Loan, the Treasury announced.

The department quoted Hooper Miles, State War Finance chairman, as reporting gross sales of \$203,000,000 at noon, or 103.6 per cent of the State's \$196,000,000 quota.

Miles said, however, Maryland's quota for individual bond sales, amounting to \$84,000,000 was yet to be attained. He did not give the current individual sales figure.

To The Balkans?

London, Sept. 20 (AP)—An Allied war fleet was reported steaming up Aegean sea off the west coast of Turkey today, stirring new talk of an imminent lunge into the Balkans.

Italian refugees reaching Turkey reported the presence of the large concentration of war vessels and London morning newspapers quoted them as saying that Allied forces had occupied the island of Castellorosso, most southerly of the Dodecanese group four miles from the Turkish coast and 90 miles east of Rhodes.

Reds Advance

Moscow, Sept. 20 (AP)—Red army troops under Gen. Andrei Yermenko, hero of the battle of Stalingrad, cracked through the gateway to Smolensk on the central Russian front over the week-end as the Soviet advance shifted into high gear all along the active 700-mile battle line, a Russian communique announced last night.

Victory guns boomed out in Moscow again as Russian troops drew nearer to Smolensk and Kiev, two great German bastions on the Dnieper river. In the north the Red army moved to within 30 miles of Smolensk, capturing Dukhovschina, while another Soviet column, striking down the railroad from Nezhin, was only 42 miles from Kiev, capital of the Ukraine.

MERCILESS AIR ASSAULTS POUND BLEEDING FOE

By WES GALLAGHER
Allied Headquarters in North Africa, Sept. 20 (AP) —The American Fifth Army has seized control of the south side of the Bay of Naples by capturing all the commanding heights of Sorrento peninsula, Allied headquarters announced today.

Already padlocked on the seaward side by the occupation of the islands of Capri, Ischia and Procida on either side of the bay, Italy's second largest port thereby came under the gaze of Allied soldiers across 12 miles of water and within range of "Long Tom" artillery.

Air Lashing
Easily within artillery range also were the Italian Naval base of Castellammare, recently bombed by the British Navy, and the key railway town of Torre Annunziata, both in the lower elbow of the bay. Smoking Vesuvius rose but 10 miles from the Allied mountain positions.

While troops occupied the peninsula stretching 22 miles west of Salerno, other parts of the Fifth Army slashed eastward and northward from their Salerno beachhead in Montecorvino and Battipaglia sectors where the Germans apparently were making a full-scale retreat under a merciless air lashing reminiscent of the days when the British were trying to get out of Greece under the blows of the Nazi air force.

The British Fifth corps, closing in from the Italian heel, captured Gioia, 28 miles from Taranto on the road to Allied-held Bari, and a headquarters spokesman said the Germans had completed the evacuation of Sardinia, the huge island and air base which Mussolini had regarded as the No. 2 defense outpost of Italy.

(The German high command admitted that Sardinia had been given up.)

Get 10 Airfields
With the capture of Sardinia by Italian troops acting under orders of Premier Marshal Pietro Badoglio, the position of the Germans in Corsica, only seven miles to the north, apparently became untenable and the Allies gained the potential use of 10 airfields from which to press attacks on northern Italy and southern France.

It was not likely that much use was being made of Sardinia by Allied forces as yet, however, because of the flood tide of operations on the mainland now beating against Naples.

(A Morocco radio broadcast said the German commander had ordered a state of siege in the Naples area.)

The Fifth Army advances were reported made "against decreasing enemy resistance."

Further reinforcements continued to arrive on the Salerno beaches to swell the ranks of Lt. Gen. Mark W. Clark's American and British forces which yesterday were reported to have captured Battipaglia and Altavilla.

Full Retreat

A military spokesman announced that all of Sardinia had now been cleared of German forces by two Italian divisions which ousted the Nazis on orders direct from Marshal Pietro Badoglio, who now is somewhere in Allied-held territory.

There were indications the Germans were making a full retreat from the Salerno bridgehead, the spokesman said, adding that "considerable columns of enemy vehicles were observed withdrawing."

The air force reported that American A-36 Invaders attacked a column of 1,800 German vehicles traveling northward from Contursi, 10 miles east of Eboli facing the bridgehead, and destroyed or damaged 246 of them.

SEES NEW WAR PHASE NEARING IN PACIFIC AREA

By DEWITT MACKENZIE (Associated Press War Analyst)

The Red drums continue to roll out their message of the smashing of Hitler's greatest battle-line, and still more of the house that Adolf built on the Mediterranean sands has collapsed over the week-end, but we shouldn't let these events in neighboring Europe blind us to the significance of General MacArthur's brilliant coup in the capture of the Jap base of Lae on the fetid island of New Guinea half way round the globe.

As the crystal ball reads, the conquest of Lae and its brother base of Salamaua presages important developments in the near future. I think we can begin to look for another big naval and air engagement to grow out of the present situation.

"Making Our Way Back"

Further indication that we are witnessing the beginning of a new phase of Allied offensive in the South Pacific is seen in the attack by strong American naval forces at the week-end on Tarawa island in the Gilbert group, and on Nauru island west of the Gilberts. The waters of the South Pacific are beginning to boil.

President Roosevelt in his message to Congress called pointed attention to the fact that the position "has become a threat on our part against the Japanese in the seas that lie north of the Solomons and north of New Guinea." MacArthur having personally directed this fresh operation against New Guinea, part of the time from a Flying Fortress over the smoking-hot jungle, also has said that the Lae victory is a serious blow to the Japs.

"With God's help we are making our way back," he said in a special announcement. He of course had reference to the Philippines, which he has sworn to redeem.

Springboard to Rabaul

Now that's strong testimony, coming as it does from the Commander in Chief in Washington, and his captain in the far Pacific, and the significance of it is this:—The New Guinea coast on which Lae is situated (please get out the maps!) lies close to the island of New Britain where the Japs have their powerful base of Rabaul. This base is the key to all the islands which they hold in the New Guinea and Solomons area.

Lae gives MacArthur a springboard from which to strike at Rabaul. Important as Rabaul is, however, MacArthur already is looking across it to another much bigger prize some 800 miles farther north. That's the island of Truk where the Nipponese have the most powerful naval base of their mandated island group. The waters of that stronghold are headquarters for a big part of the Mikado's fleet which isn't in home waters.

Possession of the strategic island of Truk—which we propose to have—will put us in a highly favorable position for naval operations towards the Philippines, the East Indies and Japan herself. But capture of Truk must mean another great naval battle, unless the little men of Nippon run away.

To Split the Japs

The United States Navy is eager for a showdown, but the Japs have shown little eagerness for another major clash with Uncle Sam's fleet. Still, that battle is bound to come. When it does it's likely to fairly well settle the naval argument outside Japan's home waters where they are holding the main fleet as a vital protection for their tiny island kingdom. In this connection it's important to note that the Japs have been steadily shipping in both naval and air strength, as they have not been able to replace the great losses which we have been inflicting on them.

It isn't unlikely that the offensive which is steadily growing in the Southwest Pacific may be coordinated with the projected drive against Burma. Mr. Roosevelt in his message reaffirmed that "after a long period of defensive strategy in Burma, we are determined to take the offensive there." At the best, a major amphibious assault on Burma can't be expected for some weeks yet, since the monsoon season with its deluge of rain is only now coming to a close. Once the dry weather arrives, it still will take much time to get a great expedition under way.

One would expect that under normal conditions Lord Louis Mountbatten, commander of the Burma show, and General MacArthur would coordinate their efforts, so as to split the Japanese naval and air forces.

NEW STAMP BOOTH

A war bond and stamp booth has been set up in the G. C. Murphy store here under the supervision of the Women's Auxiliary of the Moose. C. O. Schweizer, manager of the store, said today. That plan for the sale of a million dollars worth of bonds has been inaugurated in the 207 Murphy stores. The county in which each store is located receives credit for the bond sales there, Mr. Schweizer stated.

WANT ADS ARE SCANNED FOR SCARCE GOODS

By RALPH E. WALLIS

Harrisburg, Sept. 20 (AP)—A bird cage, an old-fashioned hand clothes wringer or a used bath tub.

Hope springs eternal and priority-hit Pennsylvanians apparently are putting their trust in newspaper want ads to get the articles no longer manufactured because of the war.

A "good looking second-hand bird cage" is what a Lebanon advertiser is seeking while up in Scranton an appeal was made for the "old-fashioned hand wringer for wash tub."

There are several prospective bath tub purchasers, one in Scranton who just wants to buy a "used" one and other in Sayre who will pay cash or trade a good stove for anything that holds water and is big enough to bathe in.

Two "defense workers" in Bloomsburg need an "inexpensive" alarm clock—electric or hand-wound, just so it gets them out of bed on time.

Quotations Times Ad

The butter shortage has a Biglerville patron of The Gettysburg Times on the lookout for "a small electric churn" while a York advertiser is in the market for a small radio that "need not be in working condition."

An Allentown resident would like an electric washer "broken or unused" and a mouth organ for "a Marine in the jungle" is being sought in the Wilkes-Barre area.

A musically-inclined Warren subscriber wants to buy a saxophone—or if he can't is willing to talk business about renting one.

And for some reason an advertiser in York county is looking for adult cats and dogs but the felines must weigh a good five pounds while the canines must tip the scales at 25 pounds or more.

Three Victims Of Accidents Treated

John Washington, 6, colored, son of Mr. and Mrs. Lloyd Washington, West Breckenridge street, was treated at the Warner hospital Saturday following a fall from a Minter's store truck in front of the Washington home. He received brush burns and lacerations of the face.

Dale Eckert, 17, Gettysburg R. D., was treated Sunday for numerous lacerations of the face and scalp received in a fall from a bicycle.

Roy Thomas, 14, Biglerville, received treatment Sunday for laceration of the upper lip received when struck by a can thrown by a playmate.

Mental Conflicts Handicap Soldiers

Carlisle, Pa., Sept. 18 (AP)—The overseas correspondent of the "Medical Soldier," publication of the Carlisle barracks, believes most nervous conditions resulting from warfare are due to something more than just shell shock.

Lieut. Ralph H. Major, Jr., said in the current issue of the newspaper that the majority of emotional disturbances among soldiers are caused by terrific mental conflicts, adding:

"Under the severe strain of modern warfare, doctors assert, the soldier is constantly pitting the ideals for which he is fighting and his desire to do his duty against a violent death under the background of ear-splitting explosions, maimed comrades, lack of sufficient sleep, confusion, fatigue and poor nutrition."

Family Overcome By Coal Gas Fumes

Philadelphia, Sept. 20 (AP)—A telephone call to police by a neighbor who noticed an unusual lack of activity around a two-family apartment house was credited today with saving an elderly man, two women and two children from asphyxiation. Officers who responded to the call reported they found all five unconscious from coal gas. Four responded to emergency first aid treatment. The fifth, Stanley Rodzanski, 64, was taken to Frankford hospital where his condition was reported serious.

BULLETINS

Moscow, Sept. 20 (AP)—U. S. Ambassador William H. Standley departed suddenly from Moscow by plane yesterday and an official announcement said he was en route to Washington for consultations. There was little belief here, however, that he would return. The admiral, who is 71, had not planned to spend another winter in Russia unless his presence was considered absolutely necessary.

Washington, Sept. 20 (AP)—Favorable House consideration of legislation to increase allowances for service men's dependents was predicted today by Speaker Rayburn.

School Children Aid Bond Drive

Philadelphia, Sept. 20 (AP)—With Philadelphia \$226,484,000 short of its goal in the Third War Loan campaign, officials turned to the city's school pupils today for help in putting the drive across.

Campaign Chairman P. Blair Lee said the children would be asked to supplement the work of 48,000 volunteer war bond salesmen already in the field.

If Philadelphia failed to reach its \$490,048,000 quota, Lee declared, "it would be a disgrace from which the city could not recover."

Reports from Sunday sales and from last week's efforts of 7,000 policemen and firemen were expected to increase the city's total by more than \$4,000,000.

Newsprint Factors Are Set Up By WPB

Washington, Sept. 20 (AP)—Six factors, including circulation and population increases, will govern the War Production Board in handling the requests of newspapers for additional newsprint allotments.

WPB said it would compute the amount of an allotment increase on the basis of economical use of paper by publishers. Requests for increases will be denied if investigation proves the publisher can meet his requirements by conserving regular quotas.

SEEK SAILOR IN GIRL'S DEATH

New York, Sept. 20 (AP)—Police today were seeking the identity of a man clad in a sailor uniform who was reported to have been with 15-year-old Frances Mary Wallace of Philadelphia Saturday night several hours before she was found slain in a hotel room here.

The girl, found lying on a bed with her skull crushed and a wooden coat hanger thrust down her throat, was identified yesterday by her parents, Mr. and Mrs. Hugh Wallace of Philadelphia.

The couple had reported their daughter missing last July.

Detective John Hawthorne said that it had been established that the girl and a man in a seaman's outfit registered as "Mr. and Mrs. McGillick" at the Hotel Cosmopolitan and that the man was seen leaving the hotel about 45 minutes later.

The detective said Mrs. Wallace told him her tall, red haired daughter had left home before and once was found at the home of her paternal grandparents in Boston.

Hawthorne also reported that Mrs. Wallace had supplied him with names of several sailors the girl

Congress Amends Fulbright Plan

Washington, Sept. 20 (AP)—The House Foreign Affairs committee wrote into the Fulbright Postwar Collaboration Resolution today an amendment saying in effect that Congress has the power to approve or reject any international arrangement to preserve the peace.

The qualification—demanded by the Republican minority—was accepted unanimously by the committee a short time before the House was called into session to act upon the resolution itself, with leaders of both parties predicting its approval.

To the resolution by Rep. Fulbright (D-Ark.), placing Congress on record as "favoring the creation of appropriate international machinery with power adequate to establish and to maintain a just and lasting peace, among the nations of the world, and favoring participation by the United States therein," the amendment added these words:

"x x x through its constitutional processes."

Just Folks
By Edgar A. Guest

FELLOWSHIP
This ever was the lot of man
And will be ever to the end;
Who bravely does the best he can
Will never want for friend.

Within the human heart and mind
Dwells always this, though high
or low:
The wish to others to be kind
As the days come and go.

This difference marks the human
race
From other creatures all:
Man will his fellow's peril face
In answer to his call.

And knowing hunger, thirst and
pain
And how the flesh can tire,
He'll shield his brothers from the
rain
And share his food and fire.

Today's Talk
By George Matthew Adams

SELF SECURITY
There is a great deal of idealism
dealt out in every plan proposed for
"Social Security." I have never
liked the name, however. I like
Self Security better. That is what
has made every successful man or
woman, and every great nation. Self
Reliance is a twin brother to it.

If every human being born is as-
sured, as soon as he reaches under-
standing, that he is to be cared for,
from the cradle to the grave, and
that he has nothing to worry about,
imagine what a race of dependents
this world would have! Those who
first came to this Western World,
discovering, inventing, and sacrific-
ing, had no other capital than Self
Security in mind—Self Security for
themselves, and because of this in-
dividual independence, to pass on
the example to their children.

The weak, ill, and those who have
unavoidably been misfortune, surely
deserve all the security possible to
comfort and care for them through-
out life—but not the able-bodied
and the healthy. They have the
opportunity to gain Self Security
which should be the pride of every
human being given his chance in
this world. It's that chance that
should be assured him under a free
form of government.

Food and comforts that are earned,
through work, enter into the
very muscles, the brain, the heart,
and every stream of blood that
courses through one's veins. And
the will to live and to be useful in-
spires such a one with the love of
life itself and all its opportunities.

Take incentive away from a hu-
man being and you rob him of his
greatest asset. You dismantle his
dreams. You cheat him out of the
fun of achievement. You feed him
the substance of which idleness is
composed. You take the rudder of
life from his sailing craft.

It is so much easier to succeed
than it is to fail. But if you hand
the tools of success to one, without
his having earned them, he is most
apt to dull them into uselessness
long before he has learned to make
them serve him and his fellows.

There is no heritage quite so pre-
cious as that of one who feels in his
heart that he has been born, not
only to enjoy this beautiful world,
but to so work and live that he may
cause no unhappiness to anyone,
and glorify in the fact that he can
look after his own life and see it
safely through to the journey's end.

Tomorrow Mr. Adams will talk on
the subject: "Courtesy Today."

Soft coal supplies industry with
more than half the power required
to produce weapons of war.

Terrible Accident: At least 2,000
persons left Baltimore on Tuesday,
for York, to be present at the cele-
bration there of the anniversary of
the Battle of Baltimore. Four large
trains, crowded to the full with the
Defenders, military and private citi-
zens, were despatched from the de-
pot. The trip was delightful and
everything augured a gratifying
celebration, until an awfully dis-
tressing accident occurred. When
the first train reached a point about
8 miles from York, the front axle-
tree of the first passenger car broke,
throwing that car, and the two fol-
lowing it, off the track, and shat-
tering them. The persons in the
cars escaped without injury, with
one trifling exception; but all the
persons standing on the platform
between the cars sustained fearful
injuries.

As soon as the sufferers were ex-
tricated prompt aid was rendered to
them by doctors who were in the
train of cars, and an express loco-
motive despatched to York, which
returned with all the medical gen-
tlemen of that town. The wounded
persons were soon after conveyed
to the hospital at York, where their
wounds were dressed, and every
comfort afforded them their situa-
tion would admit of. All but four
were able to be removed to Balti-
more on Wednesday. McCabe was
not expected to survive Friday or
Saturday, mortification having tak-
en place.

SEVENTY-FIVE YEARS AGO
Election: The election for man-
agers of the "Adams County Mutual
Fire Insurance company," on Mon-
day resulted in the choice of the
following gentlemen:
George Swope, D. A. Buehler, E.
G. Fahnstock, R. McCurdy, H. A.
Picking, Jacob King, H. C. Peters,
Fred Diehl, W. Ross White, A. P.
Gitt and S. R. Russell.

baud has sold his farm in Straban
township, 55 acres with improve-
ments, to Jacob Bucher, sen., for

in Straban township, 180 acres with
improvements, to Jacob Hulick, for
\$49.00 per acre.

his property on Seminary ridge, 116
acres, to the Gettysburg Katalysine
Springs company for \$2,000.

Daniel Eberhart has sold his farm
in Hamilton township to Wesley
Heagy—80 acres, for \$6,200. Mr.
Heagy has since sold 17 acres of the
farm to Saml Wiest at \$60 per acre
and 14 acres to John U. Ruff at \$75
per acre.

European War: European dis-
patches represent a general war as
imminent. France and Prussia are
thoroughly armed, on a war footing,
and watching each other closely. The
Pall Mall Gazette says that in every
capital of Europe the belief that a
great and immediate war is im-
pending grows day by day, and that
those best informed expect it to break
out before the end of the year.

Race: The race between Dr. Tate's
horse "Cashier," and the noted Grey
Stallion from Lancaster, came off
on Thursday afternoon at Hartzell's
lane, attracting a large crowd. The
stakes were \$800 with a good deal
of betting. "Cashier" was given the
odds of 50 feet in 440 yards. The
race was won by the Grey Stallion,
by about a length and a half.

convenient property.

CHURCHILL TO GIVE COMMONS REPORT ON WAR

London, Sept. 20 (AP)—Prime
Minister Churchill, back in Britain
after a momentary six-week visit to
Canada and the United States,
plunged today into the task of pre-
paring a war review to be presented
shortly to the House of Commons.

The review, which will be Church-
ill's first since his brief statement
to Commons July 27 and which is
expected to be one of his longest,
will open a two-day war debate
when Parliament reconvenes after a
brief summer recess.

It is anticipated that during the
debate the government will be asked,
among other things, to explain
why Italy was given a "breathing
space" after Benito Mussolini's fall
and why the Allies failed to demand
from the Badoglio government the
immediate surrender of the former
Duce.

Longest Absence
The first Commons debate in eight
weeks also is expected to demand
additional details on the Italian sur-
render, more definite news of pro-
posed conferences between Britain,
the United States and Russia, and
information on the operations of
"AMG"—the Allied military govern-
ment in occupied territory.

Churchill, accompanied by Mrs.
Churchill and their daughter, Mary,
a subaltern in the ATS, returned to
London by special train last even-
ing after their Trans-Atlantic
plane had landed at an undisclosed
point.

Churchill, who was looking excep-
tionally fit, never before had been
absent from Britain so long since he
became Prime Minister. His arrival
in Quebec was announced August 10.

**Legion May Stick

Omaha, Sept. 20 (AP)—The
American Legion silver anniversary
convention, opening tomorrow, evi-
dently will be asked to continue the
traditional Legion advocacy of mili-
tary might for the United States
second to none, regardless of any
post-war plan of international co-
operation.

The trend toward insistence upon
unbeatable American military
strength even after the war was
apparent today in expressions by
Legion leaders and in the subject
matter of some of the 700 resolu-
tions under pre-convention con-
sideration by various committees.

National Commander Roscoe Var-
ing of Memphis, Tennessee, em-
phasized that the Legion is com-
mitted to future cooperation with
other peace-loving countries after
the war, then added:

"But when the war is over we
must remember that we will have
to maintain an armed force for
America strong enough to protect
our interests no matter what hap-
pens."

Convict Offers Skin For Grafting

Philadelphia, Sept. 20 (AP)—A
convicted murderer serving a life
term in Eastern penitentiary pre-
pared to give some of his skin today
to save the life of 10-year-old Judy
Rosen.

Warden Herbert M. Smith iden-
tified the inmate, one of a number
who volunteered, as Thomas J.
Caulfield, 33, sentenced on a charge
of killing a policeman during an at-
tempted cigar store robbery in 1929.

Physicians at Mt. Sinai hospital,
where the skin grafting operation
was to be performed, said it offered
the only hope for the girl's recovery.
She was badly burned on the arms
and chest when her dress caught fire
last May.

the accuracy of dealers' deposits of
ration stamps in rationing banking

regular intervals by 196 banks in the

ration banking facilities.

Designed specifically for use in
counting bulk quantities of 2,000 and

depositors, the machine is sensitive
enough to indicate accurately as few
as 20 stamps.

Pa. Relief Costs Lower In August

Harrisburg, Sept. 20 (AP)—Cost
of aid to needy Pennsylvanians fell

secretary at the same time reported

MARSHALL SAYS MANPOWER CUT WOULD PERIL WAR STRATEGY

By JACK BELL

Washington, Sept. 20 (AP)—Gen-
eral George C. Marshall told the
Senate and House Military commit-
tees today that if Congress inter-
rupts the steady flow of men into
the armed forces "we will suffer a
much greater loss than we antici-
pate from the Germans or Japs."

Asserting that the American
armed forces have reached their
peak of training and are poised for
aggressive employment all over the
world, the Chief of Staff said he was
puzzled "by the reaction at this
time."

It seemed to him, Marshall said,
that if Congress stepped in to in-
terrupt the flow of men through
Selective Service, "all we can do is
reduce our program and chance our
strategy."

"Certainly," Marshall testified, "if
you cut us now, we suffer a much
greater loss than we anticipate from
the Germans and the Japs."

Washington, Sept. 20 (AP)—A
possible compromise by which the
drafting of fathers might be delayed
30 days while Selective Service re-
examines physical and occupational
deferments was reported under con-
sideration today by members of the
Senate Military committee.

Senator Bridges (R-NH) disclosed
that some committee members have
been discussing the feasibility of
offering such a proposal as a sub-
stitute for a bill by Senator Wheeler
(D-Mont) which would postpone the
induction of pre-war fathers for the
rest of this year.

"I don't know whether anything
will be done about it or not,"
Bridges told a reporter, "but that
might be acceptable to a number
of Senators who don't want to vote
to draft fathers but still don't want
to deny the army any men it needs."

While Bridges said he thought
a resurvey of the deferment classi-
fications might yield a sizeable
number of prospective inductees,
Senator Gurney (R-SD), another
committee member, expressed doubt
that many eligible men could be
found that way.

Gurney said he believed many
fathers would like to have the issue
settled immediately, preferring to
take their chances of being among
the one in 12 family heads to be
inducted before the end of the year
to the uncertainty of not knowing
when or if they are going into the
armed forces.

Maximum Prices On Recapping Set

Maximum prices for recapping
truck and bus tires in sizes smaller
than 8.25-20 with Grade A camel-
back have been established by the
office of Price Administration, it was
announced today at the District
OPA office. The prices reflect a
change from Grade C to Grade A
camelback ordered by the War Pro-
duction Board for these smaller
sizes of truck tires.

The result will be slightly higher
ceiling prices for recapping with the
better quality Grade A than with
Grade C but the higher price is far
more than offset by the substantial
increase of mileage afforded, OPA
said. The price difference is based
on the changed direct material
cost.

Letters To The Editor

Dear Sir:

Nearly a year has passed since
I've been receiving the home town
paper, and again I want to send on
to you and your staff my expres-
sions of gratitude for this favor.
As I mentioned to you before, the
folks on the Home Front are doing
a splendid job of boosting the mor-
ale of the boys by just such gestures
as these. Again we thank you.

Since I came to this camp one
year ago September 19th much water
has gone under the bridge. Many
of the local boys who came here
with me have been transferred else-
where. Among the original group
who still remain are Cpl. Robert
Storm, PFC Norbert Felix, PFC
Dennis Reynolds, Pvt. Thomas
Wagman and Pvt. Harold Wortz.
We all await promotions this month.

For those who can't identify me
I'm one of the two sons of Quintin
R. Rebert, present candidate for
County Commissioner, who are in
the armed services. Since I last
wrote you I've become the proud
father of Hugh Stanley Rebert, who
is with Mr. Rebert at Spring City,
Pa. I'm now Acting Corporal and
Chief Orderly Room clerk for the
Quartermaster Squadron here at
one of the Army's largest Gun-
nery schools. Five hundred aerial
gunners are graduated from here each
week. Since I've come into the Army
it has been one of my jobs to edit
the Quartermaster column of our
weekly Post paper. It is more or
less a continuation of my high
school teaching work so I feel right
at home as it were. I'm enclosing
this week's copy as our article was
lucky enough to rate the front page,
the dream of every writer.

I trust that this letter will in some
small way repay our debt of grati-
tude to you for your thoughtful
kindness in passing on to us the
news of the home folks and our
Buddies scattered to the far corners
of the world. To you and to all of
them our hopes and mutual prayers
for a speedy victory. With every
good wish, I remain,

Gratefully yours,
PFC HUGH G. REBERT

Dear Sir:

Again I want to express my ap-
preciation for having the "Times"
sent to me. In it I find just where
my friends are located and in some
cases what they are doing. For
awhile my papers didn't arrive be-
cause of the difficulty in mail han-
dling at Illinois, but when mail did
start coming the "Times" was a
welcome item. Where I am now
there are no Gettysburg boys so the
home town newspaper is the source
of information about what is going
on there.

Ithaca is much nearer home than
Champaign and traveling time isn't
as long as before. This campus is
beautiful and so is the surrounding
territory. From our quarters on a
hill we get an unobstructed view of
the southern end of Cayuga Lake,
Ithaca, and the hills extending
southwest. The cold weather hasn't
changed the color of the trees but
when it does these hills will be
prettier yet.

The nature of our course is such
that we are never free when the
sun is right for photography but
someday I want to get pictures of
this place. Our free time is from
two o'clock Saturday to seven o'clock
Sunday evening but as things are we
can't depend on being free those
hours all the time. All study hours
are compulsory and are strictly
supervised—there just isn't another
